

Bio

ABIBOO Architecture is led by its Founder Alfredo Munoz who has been granted a PhD in Architectural Design in USA and earned his degree in Architecture from Spain. Alfredo is an International Associate of the American Institute of Architects (AIA) and of the Architectural Association of Madrid (COAM). He has lectured and taught at Columbia University, University of Pennsylvania, European University, Pescara University, at the Royal Institute of Technology in Stockholm and Tongji University at Shanghai among others.

Prior to founding ABIBOO he lived in Europe, the Middle East, India, Japan and USA, working for some of the most acclaimed architects of the XX century as a Project Manager in charge of large-scale projects, Director of subsidiary offices in other countries, and as Associate and senior designer. During this time that preceded ABIBOO he directly managed teams of over 50 people and the buildings he has designed or managed add up to over 3 million square feet with budgets of over 2 billion Euros. Some of these firms prior to ABIBOO Architecture are Skidmore Owings and Merrill (SOM), Toyo Ito, Abalos & Herreros and Alberto Campo Baeza.

At present times Alfredo Munoz is constantly traveling, learning from the diverse arts and cultures of the world, and sharing the philosophy of architecture and the lifestyle that ABIBOO represents and proposes everywhere he goes.
